convo

Brand Guide

The identity system for Convo — conversations that convert.

v1.0 — April 2026

01 — Personality

Smart, fast, unmistakable.

Convo is the AI chatbot that turns website visitors into conversations — and conversations into content. The brand feels like a product built by people who ship fast and care about craft.

Energetic

Convo doesn't sit still. The brand radiates momentum — warm colours, confident type, and a bias for action.

Intelligent

Behind the energy is genuine substance. Clean information design, precise language, zero fluff.

Approachable

No enterprise jargon. Convo talks like a sharp colleague — direct, warm, and actually helpful.

Personality	Voice	Audience	Benchmarks
Sharp · Warm · Fast	**Confident · Direct · Human**	**SMBs · Marketers · Founders**	**Linear · Vercel · Loom**

02 — Logo

The mark.

A pure wordmark in Fredoka 700 — bubbly, rounded letterforms that feel friendly and alive. All lowercase. Always in Convo Orange unless reversed to white on dark backgrounds.

03 — Colour

Orange + black. That's it.

One bold primary. Clean neutrals. The palette is deliberately restrained — let the product and the content do the talking.

04 — Typography

Outfit + Inter.

Outfit for everything that needs to grab you — headlines, UI, buttons. **Inter** for everything that needs to inform — body, captions, data.

Display
Outfit 800
-0.04em
0.95 line-height

Every conversation counts.

Heading
Outfit 700
-0.03em
1.1 line-height

Turn every chat into content that ranks.

Subheading
Outfit 600
-0.01em
1.35 line-height

AI-powered conversations that understand your business, engage your visitors, and write your next blog post.

Body
Inter 400
0 tracking
1.7 line-height

Convo sits on your website and does two things brilliantly: engages every visitor with genuinely helpful conversation, and turns those conversations into SEO-optimised articles. It's the growth loop that runs itself.

Conversations stored with full context · Topics auto-extracted · Articles published to your CMS · Sitemap updated

---

05 — UI Elements

Clean, confident, tactile.

8–12px radii. Tight spacing. Strong contrast. Every element earns its place.

Buttons

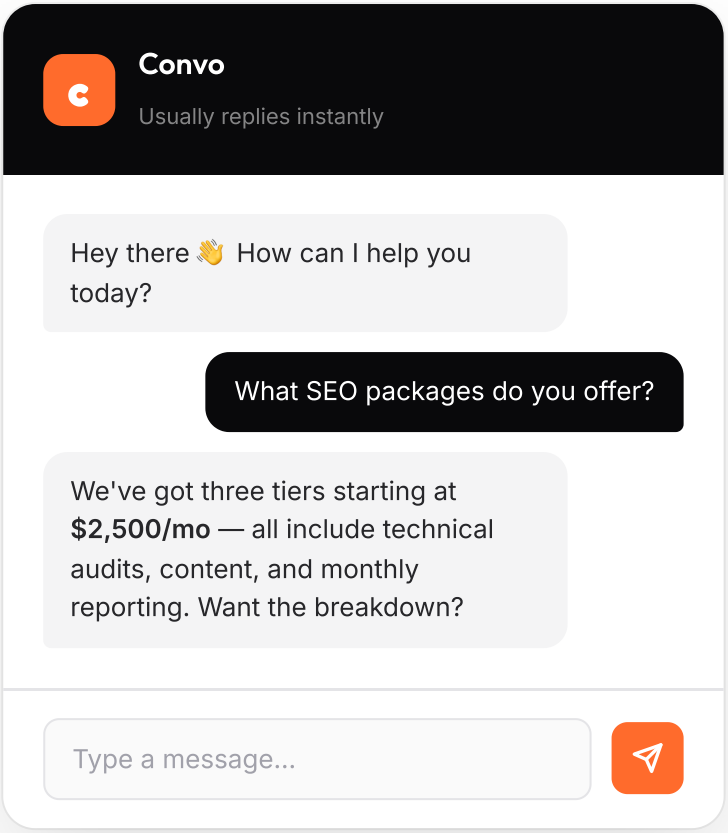
Badges

✦ AI-Powered • Live Free tier

Widget

The product's front door. Black header, clean messages, orange send button.



06 — Voice

Write like a human.

Confident without being cocky. Smart without being nerdy. Write like you're texting a friend who runs a business.

DO

- ✓ Short, punchy sentences
- ✓ Lead with the benefit
- ✓ Be specific — use numbers
- ✓ Australian English (colour, optimise)
- ✓ Say "you" and "your"

DON'T

- ✗ Corporate jargon ("leverage", "synergy")
- ✗ Over-explain — trust the reader
- ✗ Be vague ("improve your marketing")
- ✗ Passive voice when active works
- ✗ Say "AI-powered" in every sentence

✓ THIS

"Your website visitors are already asking questions. Convo turns those conversations into blog posts that rank."

✗ NOT THIS

"Our AI-powered solution leverages natural language processing to facilitate automated content generation from conversational inputs."
